

## SOREX FLEX - Keypad & RFID cylinder

### Battery operated digital cylinder for door releases with codes and RFID media

The SOREX battery-operated SOREX FLEX - Keypad & RFID cylinder enables you to lock and unlock your doors by means of RFID cards and RFID key-chains. The installation of this product is easy; simply change the existing key-lock cylinder for the SOREX digital-cylinder, there is absolutely no need to replace any of your existing doors. The length of the cylinder can be adjusted to fit a wide field of different doors, thus it can be easily reused. The card or key-chain is simply held in front of the doorknob and upon identification the door locks or unlocks itself.
